

FARMERS' MARKETS

Farmers' markets offer shoppers a wide variety of fresh, locally grown fruits, vegetables, herbs and other farm-fresh foods. Many markets also have eggs, meats, honey, plants, flowers and hand-crafted items. Some have baked goods, dairy products, nuts, and even live music.

Farmers' markets provide family farmers and local food enterprises a reliable place to sell the fruits of their labor directly to the public, keeping those dollars in our local economy.

Visit a Central Oklahoma farmers' market near your work or home and get to know your local farmers.

EATING WITH THE SEASONS

Every crop has a season in which it grows and becomes ready for harvest. Some prefer cool temperatures and others need lots of heat. Fruits and vegetables are most flavorful and nutritious when picked at or near their peak ripeness.

When shopping at an Oklahoma Grown farmers' market, expect to find an ever changing selection of fruits and vegetables over the course of the season. Experience the thrill of finding and preparing your old-time favorites and trying something new, each week throughout the year.
